

REQUIREMENT OF CONSULTANT / ADVISOR (DRILLING SERVICES)

Oil & Gas Development Company Limited (OGDCL) is looking to hire the services of Consultant / Advisor (Drilling Services) to improve processes, competency of personnel and overall quality of its drilling operations. It is a hands-on role requiring technical input on day-to-day drilling operations.

Qualification: Bachelors of Engineering or M.Sc. / BS in Chemistry or Geology (04 years equivalent by Higher Education Commission "HEC").

Experience: Overall 25 years post qualification experience in Drilling Fluids Engineering and Services with world renowned Oilfield Service Companies or drilling fluids engineering roles with E&P companies with at least 10 years field experience within Pakistan and 05 years in office based supervisory / management role. The candidate must be proficient in WBM, OBM and High Efficiency / Performance Mud Systems and must demonstrate technical understanding of design and execution of drilling fluids operations. The candidate should have strong communication skills and ability to train others. The role requires:

- To analyze selection of drilling fluids type for each section and its basis of selection and provide recommendations on its optimization.
- To review simulations of mud hydraulic while drilling and suggest improvements.
- To make recommendations on developing SOPs for Drilling Fluids Planning, Fluid Design, Execution and Evaluation.

NOTE:

- Period of Consultancy Services shall be one (01) year.
- Company reserves the right to stop the process at any stage.
- Only shortlisted candidates will be called for interview.
- No TA/DA will be admissible for the interview.
- The last date for submission of applications is **June 30, 2021**
- Detailed CVs to be sent to:
