

CLARIFICATION#1 AGAINST TENDER # PROC-SERVICES/CB/P&P-4701/2020 – FOR CONDITION MONITORING/ VIBRATIONAL ANALYSIS INSPECTION SERVICES

One of the potential bidder has asked following clarifications. OGDCL response is as under:-

Sr#	Questions for Clarification	OGDCL Reply
1	<p>Financial Bid Sr. No. A (Part 1-8) It is understood that unit price will only include charges for data update of all machines, tool mobilization and data collection. Whereas the technical man power charges will be covered separately according to unit price mentioned in Financial Bid Sr. No. B & C Technical Manpower Normal Day and Emergency Rate</p>	Yes your understanding is right.
2	<p>Financial Bid Sr. No. A (Part-5) Services of Corrective Maintenance Techniques (Laser Alignment / Field Balancing/ Workshop balancing etc) In case of workshop balancing whether the rotor will be made available at service provider premises or not same like Lube Oil / Wear Debris Analysis in which M/s OGDCL will send the samples to prescribed</p>	For workshop balancing M/s OGDCL will made rotor available at service provider local premises.
3	Will it be acceptable to trim balance the turbine units and in case if needed ship it out to UAE workshop for high speed balancing or it must be provided by local workshops	This contract will not require any high speed balancing from foreign and will focus on local workshops and most preferably at site. Trim balancing will not be part of this contract whereas issues/problems identification will be at service provider to let us know the actual root cause so that corrective actions will be taken as per service provider analysis.
