

## Hiring of Rotary Steerable System Services for Directional and Performance Drilling Tender enquiry #PROC-SERVICES/CB/DO-

3112/2017

Following Correction/Clarification may be considered against the subject Tender Inquiry for submission of bid proposal.

Clarification No.	Reference Appendix/ Article/ Sub Article	Page No	Clarification	Response to the clarification
1	Instructions to Bidders – Article 5: Preparation of Proposal: Bid Price	Page 6 of 41	Kindly clarify the term ‘completion of the project’ for the payment terms. Please also clarify the payment terms in case the completion of project is delayed due to any reason beyond contractor’s control. Please note that making payment after the completion of project is not applicable to the SOW as the services will be provided during drilling and the completion of project may be delayed due to unforeseen circumstances that arise while drilling and non-payment of dues can create liquidity issues for the contractor to support OGDCL for the future activity and even in the completion on on-going projects.	As per Tender documents.
2	Instructions to Bidders – Article 26.8	Page 12 of 41	Kindly clarify if another bidder will be considered for the award if: a. Reliability of the offered service of the other bidder is better than the lowest bidder b. Financial standing of the other supplier is better than the lowest bidder Please also clarify the weightage that will be given to each of the above criteria in the final financial evaluation.	It will be as per tender document
3	Scope of Work – Article 1	Page 15 of 41	Please clarify the possible extension periods.	If the bidder request and explain the reason for extension, then it can be considered
4	Scope of Work – Article 6	Page 16 of 41	Kindly clarify if it is mandatory to have a local base in Pakistan conforming all the standards having ability to maintain Rotary Steerable Systems in country and mobilize at short notice? How will the absence of a base that does not have the ability to maintain Rotary Steerable Systems effect the evaluation?	As per tender documents
5	Scope of Work – Equipment Detail: Article (iii)(a) & (iii)(b)	Page 17 of 41	Kindly clarify if there’s any maximum mobilization period required by OGDCL to mobilize RSS and MWD tools?	Maximum 02 days is allowed for mobilization
6	Scope of Work – Equipment Detail: Article (iii)	Page 17 of 41	Kindly clarify if the bidder has to provide MWD unit for directional and performance jobs?	As per tender document and clarification on web site
7	Rate Format	Page 18 of 41	Please note that there’s no column in the rate format for the LIH charges for 12-1/4” and 8-1/2” sections. Kindly clarify if LIH charges for 12-1/4” and 8-1/2” sections should be provided by adding another column or should the LIH charges for these two sections provided separately?	In the rate format, mentioned statement “LIH Cost of above quoted tools” requirement for all hole sizes at serial No.6.

8	Rate Format	Page 18 & 19 of 41	Please clarify if the charges for MWD System are inclusive of the charges for MWD Unit.	As per tender document and clarification up loaded on web site
9	Rate Format	Page 18 & 19 of 41	Please elaborate the statement 'Redress rate per occurrence' to clarify the applicability of the redress charges.	As per oil industry practice
10	Notes for Rate Format – Article 4	Page 20 of 41	Kindly clarify if UBHOs, float subs, cross-overs and sleeves will be arranged by OGDCL for performance drilling jobs? Please also clarify that in case UBHOs, float subs, cross-overs and sleeves are provided by the contractor for performance drilling jobs, additional charges will apply and are to be provided separately.	PI see the serial No.1 in the "Note" at the end of Financial evaluation criteria
11	Technical Evaluation Criteria – Article 3	Page 21 of 41	Kindly clarify if the established base should be in Pakistan having the capability to maintain Rotary Steerable Systems and MWD tools. Please also clarify what will happen if a bidder does not meet this requirement?	As per tender document
12	Technical Evaluation Criteria – Article 3	Page 21 of 41	Please clarify how evaluation criteria 1 & 5 will be evaluated for Joint Venture bidders.	Serial No.1 can be considered for Joint venture partner and Serial No.5 will be considered only for the bidder
13	Financial Evaluation Criteria – Section A, Section B & Section C	Page 22 & 23 of 41	The quantity mentioned for all the tools is 'one (1)' in the financial evaluation criteria except the MWD tool whose required quantity is 'one (1) set'. Please clarify if all the tools are required without the backup except the MWD tool?	As per tender document.
13	Financial Evaluation Criteria – Section A	Page 22 of 41	The circulating rate and redress rate for NMDC and MWD System are not included in the evaluation. Please clarify if the circulating rate and redress rate for NMDC and MWD System will be charged if provided by the bidder.	If bidder quotes the circulating and redress rates then it will be considered in financial evaluation calculation.
14	Financial Evaluation Criteria – Section B & Section C	Page 22 of 41	The circulating rate and redress rate for NMDC, MWD System and string stabilizers are not included in the evaluation. Please clarify if the circulating rate and redress rate for NMDC, MWD System and string stabilizers will be charged if provided by the bidder.	If bidder quotes the circulating and redress rates then it will be considered in financial evaluation calculation.
15			For the RSS tools, OGDCL require "point the bit" type RSS in the tender documents, and what we can offer is "NOV vector ZIEL RSS and it is PUSH the BIT system", please confirm if this RSS tool will be acceptable for OGDCL or not?	Requirement will be as per tender document and clarifications.
16			For the LWD, What is LWD system component? MWD + Gamma Ray Sensor or MWD + Gamma Ray + Resistivity Sensor?	Clarification regarding LWD System, it is stated that it will be as per Oil industry practice.
