

Clarification No. 04

TENDER ENQUIRY NO. PROC-SERVICES/DO-3303/2018

HIRING OF CORING SERVICES

1. Technical part

No.	Reference to the Tender Documentation			Bidder's Question	Company's Answer
	Chapter	Schedule/ Section/ Clause No.	Subject		
1.	Annexure "A"	SCOPE OF WORK	SCOPE OF WORK	<p>1. Please specify the coring method required by OGDCL, please also confirm whether Sealed Coring will be included or not.</p> <p>2. Please also specify whether One coring layer each well or multi-layer coring is required?</p>	<p>1. It is clarified that conventional method is used mostly but rates for coring with jam unit is required.</p> <p>2. It is also clarified that one coring layer and multi-layer coring can be required</p>
2.	Annexure "A"	SCOPE OF WORK 3.d	Inner fiber glass tubes	Could we replace it with aluminum inner barrel? Since Inner fiber glass tubes are fragile and not easy for transportation.	Yes

3.	Annexure "A"	SCOPE OF WORK 4	Target formation	Difference target formation makes different Price/m. Can you give some suggestions for us to make price quotation?	Price per meter is not related to different target formations
4.	Annexure "A"	Terms of Reference 16	Lump sum Operating Package rate will be applicable per meter core recovery	"Core recovery", does it mean the "actual recovery length", For example, if the inner barrel is 11m long and 10.7m core is recovered, usually we quote 11m for fee.	yes

2. Commercial part

No.	Reference to the Tender Documentation			Bidder's Question	Company's Answer
	Chapter	Schedule/ Section/ Clause No.	Subject		
1.	Annexure "A"	Terms of Reference 16	Standby rate will be applicable while waiting on location during non-operational period.	Does the term "Standby" include the standby at base for equipment and personnel in condition that according to OGDCL's coring plan between two wells the time interval is long.	It is applicable during short period of standby only.

2.	Annexure-A-1	RATE FORMAT 7	LIH cost of tool	Does this cost include fishing fee part if tool lost in hole (LIH)?	As per standard industry practice
3.	Annexure "A"	Scope of Work 2	Provide Coring services for ±10 OGDCL wells per year.	Could u pls. estimate a total coring meters for the 50 locations and fields in all the four provinces? Usually a minimum scope of coring meters is required to make economic evaluation.	It cannot be estimated at this stage.
