

## **Clarification**

**PROC-FE/CB/ML-4097/2018 FOR PROCUREMENT OF MUD LOGGING SPARES/EQUIPMENT,  
DUE ON: 04-12-2018.**

1 - Pressure Sensor / Transducer : For which parameter ? Hook Load ? Stand Pipe Pressure ? Casing Pressure ?

Required, Stand Pipe Pressure / Casing Pressure (0-689.65 BAR)

2 - Hydrocarbon Mixture Cylinder = 50Ltrs Capacity ? Is that Size of the Cylinder or Gas Volume?

Required, Hydrocarbon Mixture Cylinder = 50Ltrs Capacity Its Size of the Cylinder, K-Size

4 - Cylinder Disposable Gas = 112 Ltrs ? Is that Size of the Cylinder or Gas Volume

Required, Cylinder Disposable Gas = 112 Ltrs Its Size of the Cylinder (Cartridge)

7 - Transmitter Rosemount Pressure ? For which parameter ? Is that a Pressure Sensor requested or a Transmitter (As for Mud Weight for example) ???

Required, Its a Pressure sensor used in calcimeter equipment.
