

CLARIFICATION # 2

Against Tender Enquiry # PROC-FE/CB/WL-4100/2018 for Procurement of Perforating Material

Sr No	Clarification	OGDCL Reply
1	Is 3-1/8" CCL acceptable to OGDC?	Ref SOR item 10 of the tender enquiry: It is clarified that CCL of size 3-1/8" and 3-1/4" both are acceptable.
2	Tender document does not show that the requirement is for GR including CCL, whereas perforating Gamma tool comes with perforating CCL.	It is clarified that Perforating GR comes with CCL as per industry practice.
3	Is the requirement for Single fire (Negative) or Dual fire (Positive and Negative)?	It is clarified that Dual Fire is required.
4	Is Scintillation type detector acceptable?	The bidder is advised to quote as per the SOR item 16 i.e Perforating GR with Geiger Muller Detector rated to 500F. However, Scintillation type detector is acceptable if shock absorber is part of the Perforating GR.
