

SUBJECT: CLARIFICATION PRIOR TO BID PROC-FE/CB/P&P-DKN-4488/19

Query raised by prospective bidders:

For Item#1:

Query: Material/ outer sheath of the cable glands?

Reply: Cable gland shall be covered with PVC shroud.

For items# 6

Query: Are the CT ratio written right? and is the CT installed inside or outside of the box?

Reply: CT ratios are correctly written in detail and CTs are installed outside the box and not demanded with control station.

For item # 6 & 7

Query: Current loading is not mentioned in detail such as 75A or 500A.

Reply: These are control stations having current loading 6 Amperes.
