

PRE-BID CLARIFICATION#03
AGAINST T.E#PROC-FB/CB/PROD-4613/2020

This is with reference to subject tender enquiry, please be noted following clarifications:

SR#	BIDDER QUERY	OGDCL RESPONSE
1	In the evaluation criteria OGDCL require from manufacturer the ISO-9001 & API-Q1 certification along with API-5L. We would like to apprise OGDCL that when any manufacturer apply to API for getting the API-5L certification/license, the manufacturer must have to follow and submit quality control manual in accordance with API-Q1 requirements along with API-5L application, however it is not mandatory to have API-Q1 certification separately for having API-5L certification. So a number of worldwide line pipe manufacturers who have ISO-9001 certification, they do not acquire API-Q1 certification because ISO-9001 & API-Q1 quality control management is more or less same. It is therefore requested that the manufacturer who have ISO-9001 or API-Q1 certification may please be allowed to participate in this tender for having healthy competition.	Manufacture having ISO 9001 or API Q1 can participate

NOTE: All other terms & conditions remain unchanged.
