3.		<p>ANNEXURE-II <u>TECHNICAL EVALUATION CRITERIA</u> (3). Submission of Copies of valid ISO (9001 & 14001), API-Q1 and OHSAS 18001) certifications of the manufacturer.</p>	<p>In the evaluation criteria OGDCL require from manufacturer the ISO-9001 & API-Q1 certification along with API-5L. We would like to apprise OGDCL that when any manufacturer apply to API for getting the API-5L certification/license, the manufacturer must have to follow and submit quality control manual in accordance with API-Q1 requirements along with API-5L application, however it is not mandatory to have API-Q1 certification separately for having API-5L certification. So a number of worldwide line pipe manufacturers who have ISO-9001 certification, they do not acquire API-Q1 certification because ISO-9001 & API-Q1 quality control management is more or less same.</p> <p>It is therefore requested that the manufacturer who have ISO-9001 or API-Q1 certification may please be allowed to participate in this tender for having healthy competition.</p>	<p>Agreed. manufacturer having ISO-9001 or API-Q1 certification are allowed to participate</p>
