

CLARIFICATION NO. 02

TENDER ENQUIRY NO. PROC-SERVICES/CB/CORR-4614/2020 HIRING OF NDT, MIA, RBI & OTHER INSPECTION & CERTIFICATION SERVICES

Following Clarifications has been made in subject tender:

Sr.No	Bidder's Query	OGDCL Reply
1.	<p>Tender inquiry clause 3.5 (iii) states that <u>the bidder of Group – A shall not be liable to participate and not to be considered for groups B & C services and vice versa.</u></p> <p>1. We understand that any company can participate in either B and/or C. this is not mandatory to participate in Band C both at a time. Please confirm our understanding.</p> <p>2. Furthermore, services required in Group-D also warrant conventional NDT (MT/PT of load bearing parts) for the inspection and certification of lifting equipment.</p> <p>3. Please advise if those NDT services will be utilized from Group-B or its cost should be added within the inspection requirement of Group-D. In case of Group-B, its again a conflict of interest for bidder in Group-D. and in case of Group-D, no specific requirement on NDT is mentioned in its technical evaluation. To keep it independent of any conflict, we suggest PNAC ISO/IEC 17020 accreditation (for Lifting equipment inspection) in the name of bidder.</p>	<p>1. Yes confirmed.</p> <p>2. ref: Para – 05 of TOR's Shall be the responsibility of Group – B</p> <p>3. Eligibility criteria for Group – D and specific requirement including PNAC ISO / IEC 17020-on NDT is clearly mentioned in its technical evaluation.SR # 1 bidder's to provide "Proven track record of providing Lifting Equipment's Inspection & Certification services".</p>
2.	<p>2. Reference to the SR # 2 on page 21, Provision of ISO 45001 Certificate is mandatory:</p> <p>45001 is OSHAS Standard and it is currently known as 18001 'occupational Health and Safety'. ISO introduces the 45001 standard and asked companies to migrate to it till 2021, till then 18001 is equally acceptable. Please confirm if 'Integrated Management System' is equally applicable which is covering quality (9001), health (18001/45001) and environment (14001).</p>	<p>Equivalent certificate (s) or higher is also acceptable.</p>
3.	<p>In group B , page # 23,SR # 11 & Group C Page # 23 , SR # 2, Radiographic Testing</p> <p>1. Please note that no inspection company in Pakistan is allowed to perform Radiographic Services without the 'Pakistan Nuclear Regulatory Authority' license. Please advise if the provision of PNRA license to perform</p>	<p>1. License from PNRA is mandatory is the part of TOR.</p> <p>2. In order to allow a healthy completion of bidding,</p>

CLARIFICATION NO. 02

TENDER ENQUIRY NO. PROC-SERVICES/CB/CORR-4614/2020 HIRING OF NDT, MIA, RBI & OTHER INSPECTION & CERTIFICATION SERVICES

	<p>Industrial Radiography is Mandatory for participation in group B and C.</p> <p>2. Moreover Pakistan National Accreditation Council (PNAC) also mandate accreditation of ISO 17020 for inspection companies and in order to make the qualification requirements more clear and independent the same should be required by OGDCL to have ISO 17020 (in NDT services) issued by PNAC in the name of bidder.</p> <p>3. Furthermore, since the RT activity comes under the definition of execution contractor therefore Pakistan Engineering Council (PEC) membership under execution category C-6 or above with field specialization in Mechanical (ME-06/07) must be included in the mandatory requirements of Group-B and Group-C. Please advice and amend the tender requirements.</p>	<p>equivalent certificates are also acceptable.</p> <p>3. Suggestions well noted, all the mandatory requirements are already part of technical evaluation criteria.</p>
4.	<p>1. clause 12.1 related to the bid bond, We understand that the Bid bond may be submitted in equivalent Pakistan Rupees, please confirm</p>	<p>Confirmed as per OGDCL TOR's</p>
5.	<p>1. For group B & C, there is no line item to specify the transportation cost of our inspector to file. Please confirm if we are supposed to add a line item ourselves.</p>	<p>Please ref: para clause 09 of TORs, no additional cost shall be paid for transportation / mobilization.</p>
2.	<p>1. For group B, there is no separate line item for consumables of DPT/MPI, please confirm if consumables will be provided by M/S. OGDCL.</p>	<p>No additional cost shall be paid against consumable and no consumables shall be provided by OGDCL.</p>
3.	<p>1. On page 19, Clause 9. III : It is mentioned that messing shall be charged on per head basis, please mention the price/head/day</p>	<p>Messing charges shall be as per OGDCL policy/ prevailing official rates.</p>
