

CLARIFICATION AGAINST TENDER# PROC-FC/CB/PROD/TUBING-4769/2020 6000 METERS OF PSL-2 3-1/2", 12.7, LBS/FT, NICKEL CHROME ALLOY, MINIMUM GROUP 3, MIN 110 K PSI,

Sr.	Query	Response from OGDCL
1	<p>You know there is hardly any company (none) in China who can do the CAL IV testing, it is also one requirement from the tender .</p> <p>So Could you send an official letter to our client OGDCL if they can accept our offer without this test? Otherwise it's a technical blockade of Chinese companies.</p>	<p>"Cal IV test is a mandatory requirement for the subject tender higher grade Nickel Alloy tubing as per international standards. Bidders are requested to quote as per SOR"</p>
