

CLARIFICATION NO. 1

Please clarify the following queries with reference to the subject tender enquiry:

As referred in item 16 in the Terms of Reference (TOR), we do not have any past experience in OGDCL operation regions (North, Center, South) mentioned in Annexure B rather CCDC may submit case studies of similar formations in the south because we used many bits in UEP south region. Will it be acceptable to OGDCL or not? **OGDC REPLY: Bidders are advised to submit proposal for all 03 regions including North, Centre & South.**

16. Bidders are also encouraged to provide its best 5 to 10 runs, preferably as case studies/performance reports format in Dakhni/Chanda/Mela/Rajian/Nashpa/Surqamar, Kohat, Qadirpur, UCH, Zin, Loti, Kunnar, Pasakhi, Tando allahyar, Thal blocks or in their surrounding vicinity areas regardless of the lithological information given at Annexure-B.

There have been mentioned two items (Item 3 and 5) in Technical Scoring Criteria about Tricone bits. Will OGDCL accept if we offer PDC drill bits? **OGDC REPLY: Bidders are advised to submit proposal as per OGDCL TORs.**

3	The Manufacturers quoted plant of PDC & Tricone Bits must have valid & last Consecutive 10 years back API 7-1 Certification for manufacturing of PDC & Tricone Bits.	15
	* A documentary evidence to be submitted along with the Bid.	
	> 10 years for both PDC & Tricone Bits	15
	>5 but < 10 years for both PDC and Tricone Bits	10
	< 10 years only for PDC OR Tricone Bits	0

5	Supply of Drill Bits *Unpriced copies of at least 10 different E & P companies of other than manufacturer's own country purchase orders sold during the last ten (10) years starting from year 2010 for each below Size of Tricone & PDC Bits to be submitted.	22 (12 Tricone+10 PDC)
	Bit Sizes (Tri-cone)	12
	36"	1
	28"	1
	26"	1
	22"	1
	17 1/2"	1
	17"	1
	12 1/4"	1
	8 1/2"	1
	6"	1
	5 7/8"	1
	4 1/8"	1
	3 3/4", 3-7/8", 3-1/2"	1
	Bit Sizes (PDC)	10

As referred in item 17 in the Terms of Reference (TOR), it would be hard for us to submit the performance based bit proposal. We would appreciate if you could please provide us the casing program, including hole size, the interval of each hole size, and the formation to be drilled in each hole size so that an accurate performance could be formulated. **OGDC REPLY: OGDCL has not invited for performance proposal at this stage, this will be called after prequalification exercise.**

17. Bidders are advised to prepare and submit performance based bit proposal on Meterage rate (ROP) & Total Thickness drilled based on the technical and geological information provided by COMPANY. Based
