One of the Prospective bidders has made a query against the subject Tender Enquiry. The query along with OGDCL replies is given below for information of all the prospective bidders.

S.NO	Bidder Queries	OGDCL REPLY
01	whether pre-qualification submitted jointly by a foreign Company JV with local (Pakistani) company, would be acceptable against the subject tender?	<p>Since Category I to III are pure field related and localized businesses where the consulting firm has to carry out environmental baseline studies, collection of primary data, emissions/ effluents monitoring, laboratory analysis, public consultation, etc. by placing its veteran field survey teams of specific professions like environmentalists, biologists/ wildlife experts, sociologists, etc. considered well versed with the local areas and such assignments are to be delivered in the shortest notice; subsequently the firms will have to make liaison with federal and provincial regulatory bodies to acquire NOCs and resolve various grievances/ litigation matters. Therefore, only the standalone professional environment firms having such handy traits and direct relevant experience/ background will be considered eligible to manage Category I to III requirements.</p> <p>Since Category IV is purely related to shortlisting of Certification Bodies/ Registrars against ISO 14001/ 45001 standards, therefore only the Certification Bodies (CBs)/ Registrars having valid accreditation and certifications and meet technical criterion will be considered eligible.</p> <p>However, for Category V, it is already mentioned in the ITB that the waste management company must have Operation Base in Pakistan and if a Consortium is applying for prequalification, then only the Lead Consortium Company should participate in the prequalification process as potential applicant. Lead Consortium Company must provide the copy of Consortium Agreement including the Responsibility Matrix delineating the rights and obligations of each Consortium Member Company must be submitted along with the prequalification application.</p>
