Question

1. I see that they want the structural designed to DNV 2.7-1.
2. Can you please confirm what electrical standards apply to this project?
3. Will the building electrical, pressurization system and fire and gas detection system be designed to DNV 2.7-2?
4. Also, will this building be certified to these DNV standards or only designed to these standards?
5. Will we be submitting to DNV for design approval and then dealing with DNV for inspections during construction?"

Reply:

1. Irrelevant question.
 2. Please follow the TOR.
 3. Please follow DNV 2.7-1 certification standard.
 4. Please follow TOR.
 5. Manufacturer needs to get the DNV 2.7.1 and A60 Rated certification.
