Terms and Conditions:						
	ry bidder must comply the following conditions in order to be considered	Bidder to				
	Technical Evaluation. All the required supporting documents must be	comply /confirm				
	mitted where applicable. Bidders failing to fulfil any of the requirement	the				
	ntioned below would not be considered for further Evaluation and	following in				
	nnically Disqualified without seeking any Clarifications.	the Table				
	January Garmentons.	and provide				
		necessary				
		documents				
		accordingly.				
1	Technical and Financial Bids	decoranigly.				
1.1	Bidder are required to submit Technical & Financial bids in two envelopes					
	separately					
2	Authority Letters					
2.1	In case the bidder and pipe manufacturer are different, than the bidder must					
	provide an original authority letter/OEM certificate from the pipe manufacturer.					
	The authority letter must be on company letter head, showing the name and					
2.2	contact details official E-mail of the signing authority.					
2.2	In case the pipe manufacturer and threader are different, than the bidder must					
	provide an original authority letter/OEM certificate from the pipe manufacturer in favor of threader. The authority letter must be on company letter head, showing					
	the name and contact details official E-mail of the signing authority.					
2.3	The bidder will also provide a similar letter in case they have their local agent in					
	Pakistan. The authority letter must be on company letter head, showing the name					
	and contact details official E-mail of the signing authority					
2.4	Bidders are required to clearly mention the name of Manufacturer and threader of					
	Tubing, Pup Joints and X-overs separately against each line item					
3	Manufacturing Plant (s) API Certificates					
3.1	API 5CRA					
	Bidders are required to submit API-5CRA licenses of its quoted manufacturing plant					
	(s) for this specific tender must be active at the time of bid submission. The license must mentioning to manufacture Corrosion Resistant Alloy Seamless Tubes for use					
	as Tubing and Coupling Stock Group-1, Category 13-5-2, Grade 95 Ksi.					
	The bidder to provide copies of the manufacturer API 5CRA certificates as a proof					
3.2	API 5CT					
	Bidders are required to submit API-5CT licenses of its quoted manufacturing plant					
	(s) for this specific tender must be active at the time of bid submission certified by					
	API under Specs. 5CT & Q1 for the last ten (10) years, for the date of tender					
2.2	opening. The bidder to provide copies of the relevant API certificates as a proof.					
3.3	Threader Experience of Cal IV Tested Premium Threads Tubing	_				
	In case the threader(s) is (are) different from the tubing manufacturer then the	\mathcal{I}				
	threader(s) must have a minimum of 10 year experience in cutting the CAL IV					

tested premium threads from the date of tender opening. Documentary evidence must provide with the technical bid 4. Financial Statements 1. In case bidder has not supplied super 13 chrome material tubular to OGDCL then it is required to submit original print of the annual audited accounts reports for the last 03 consecutive years (along-with attested English Copies) in order to verify its liquidity position, revenues, profitability of the company. 1. In case manufacturer has not supplied super 13 chrome material tubular to OGDCL then it is required to submit original print of the annual audited accounts reports for the last 03 consecutive years (along-with attested English Copies) in order to verify its liquidity position, revenues, profitability of the company. 4.3 In case of weak financial statement the bid will not be acceptable 1. In case bidder has not supplied super 13 chrome material tubulars to OGDCL then it is required to confirm production of its quoted manufacturing plant(s) for super 13 chrome material seamless tubing which must not be less than 2000 Metric tons of tubing per year. Bidder will provide the certificate in this regard from the manufacturing plant 6. Supply record and performance certifications of the Super 13 chrome CAL IV Tested premium threads tubing (Threaded and coupled) 6. Manufacturer must have manufactured & supplied CAL IV tested premium threads production tubing (threaded and coupled) Super 13. Chrome or higher to the multinational E&P companies like ExxonMobil, PDO, KOC, Shell, BP, Total, ENI, OMV, MOL and other renowned E & P companies (not belonging to the manufacturer's country) in excess of 1,000,000 meters during the last 10 years. Moreover the supply to the following E & P companies operating in Pakistan will also be considered like PPL, Mari, POL, UEPL, etc. The supply record must confirm this fact. The supply record must be independently verifiable i.e. the latest contact details (name, designation, official e-mail etc.) of the relevant persons in all the majo			
must provide with the technical bid 4 Financial Statements 4.1 In case bidder has not supplied super 13 chrome material tubular to OGDCL then it is required to submit original print of the annual audited accounts reports for the last 03 consecutive years (along-with attested English Copies) in order to verify its liquidity position, revenues, profitability of the company. 4.2 In case manufacturer has not supplied super 13 chrome material tubular to OGDCL then it is required to submit original print of the annual audited accounts reports for the last 03 consecutive years (along-with attested English Copies) in order to verify its liquidity position, revenues, profitability of the company. 4.3 In case of weak financial statement the bid will not be acceptable 5 In case bidder has not supplied super 13 chrome material tubulars to OGDCL then it is required to confirm production of its quoted manufacturing plant(s) for super 13 chrome material seamless tubing which must not be less than 2000 Metric tons of tubing per year. 	or official email should indicate the Name and Designation of the signing authority			
	along with his complete contact details in order to verify the same are acceptable			
	It is suggested that the certificates should preferably of a pattern providing the			
	following information:			
	i. Delivery period compliance			
	ii. Performance of supplied super 13 chrome tubing			
	iii. Performance of supplied CAL IV tested premium threads of tubing			
6.6	Certificates/Emails issued by supply houses etc. will not be considered			
6.7	Bidders or Manufacturers who have provided the chrome or higher material			
	tubing, pup joints and X-overs to OGDCL in the past and already fulfill the pre			
	requisite criteria are required to submit the copies of purchase orders issued to			
	them by OGDCL against the requirement at 6.1 to 6.6			
7	Delivery Requirements			
7.1	The desired delivery period is 08 months C&F by Sea Karachi from the date of LC			
	establishment.			
8	Quoted Tubing and Pup Joints CAL IV tested Premium Threads Connections			
8.1	The manufacturer/threader must have capability to provide thread connections			
	which are tested in compliance with ISO-13679 2002 or API 5C5 2017 Application			
	Level CAL-IV test. Test report for the quoted premium thread tubing covers the			
	range of the quoted thread/weight/size report showing the compatibility of the			
	testing/qualification records with extrapolation/interpolations rules of ISO-13679			
	2002 ANNEX G or API 5C5 2017 must be submitted. ('Petroleum and natural gas			
	industries —Procedures for testing casing and tubing connections').			
8.2	The Tensile, Burst & Collapse rating of the Quoted Premium Thread Connections			
	must be equal to or exceed those of the Pipe body ratings whereas the			
	compression rating of the quoted threads should not be less than 80% of the pipe			
	body compression rating. Documents supporting the requirement should be			
9	provided along with the technical bid			
9.1	General Requirements			
9.1	Running / Pulling, handling procedures& required torque values for the quoted			
9.2	tubing is to be submitted along with the technical quotation The hidder to confirm tubing tally specificing the length of individual in the length.			
~ J.L	The bidder to confirm tubing tally specifying the length of individual joint is to be provided along with the shipping documents			
9.3	The bidder to confirm clearly in the Bid documents that the material test certificates			
	will be provided with the shipping documents.			
9.4	Bidder must provide the detailed technical literature/documents for the			
	manufacturing/threading company.			
9.5	All X-Overs and Pup Joints should also be of Super 13 Chrome Material 95 Ksi as			
	specified for Seam less Production Tubing at Serial No 1. Except for X-Over at Serial			
	No 7 which is to be of Min L-80 or equivalent grade material Requirement.			
9.6	Bidder is required to submit the technical data sheets of the quoted tubing			
	confirming the Tubing size and weight in ppf, Chemical composition, Material			
	grade, Thread name, Pipe properties, Connection properties, Connection			
	performances, ODs, IDs, Drift ID, Range, Burst and Collapse pressures etc.			

10.	THIR	D PARTY INSPECTION (TPI)	
	1.	OGDCL will arrange the Third Party Inspection, Bidder is required to confirm	
		that they will provide necessary assistance to Third Party Inspection (TPI)	
		company. Third Party Inspection reports verified by OGDCL will be provided	
		with the shipping documents for LC encashment, Bidder is required to	
		confirm that they will timely inform the relevant TPI company and provide	
		the necessary assistance during the inspection.	
	2.	Inspection may require at least 5 to 6 or more visits to the manufacturing	
		plants and may involve 8 to 10 Man days or more. Bidder is required to	
		confirm that they will timely inform the relevant TPI company and provide	
		the necessary assistance during the inspection	
		Tentative Scope of Third Party Inspection	
	3.	Third Party Inspector to confirm that the Tubing is brand new/unused	
	4.	Visual and dimensional inspection of body on-spot basis covering at least	
		10% of the complete lot.	
	5.	Visual and dimensional inspection of Thread on-spot basis covering at least	
		10% of the complete lot.	
1	6.	Review of Mill Test Certificates.	
	7.	Review of Hydro-test Reports	
	8.	Marking verifications of the Tubing Joints.	
	9.	Preparation of Inspection report in light of the Certificates and Tally	
	10	sheets.	
	10.	Vetting of Marking, Packing/Bundling and quantity as per Contract.	
	11.	Third party inspection company will submit inspection progress reports to OGDCL PE & FD at following e-mails addresses:	
	12.	pir asim@ogdcl.com, hameed afzal@ogdcl.com,	
	12.	kafeel.ahmed@ogdcl.com,adeel_saleemi@ogdcl.com,omer_ali@ogdcl.com	
		Submission of Final Inspection report	
	13.	Place the signature /stamp on inspection release note/inspection report	
		electronically in the original pdf files of inspection release note and	
		inspection report.	
	14.	Mention OGDCL purchase order number and LC number in the first page	
_		of final inspection report/inspection release Note.	
11	General Specifications of the Production Tubing. Bidder is required to confi		
11.1	1	g joints should be provided in range R-2	
11.2			
11.3		ngth of each X-over should not be less than 2 feet.	
11.4	3, 1 1 3		
	protectors and exposed threads must be protected with an anti-corrosion storage		
11 5		ound as per API recommendations for Super 13 Chrome material.	
11.5		ry Tolerance = +0% - 3% of item no-1 Tubing in Quantity and Value is	
		ed however the payment will be made as per the actual quantity of tubing red/received.

<u>Oth</u>		
1	Clean Acceptance of terms & conditions of Tender Document, Schedule of	
	Requirement is required from the Bidder.	
2	2 Shipment from ACU Member Countries: In case of Shipment from ACU Member	
	Countries, the LC beneficiary should be of that particular country from where the	
	consignment is being shipped	
3	Foreign Procurement Payment Terms (Competitive Bidding, Pre-qualification and	
	Proprietary Mode of Procurement): Following payments methods have been	
	approved for Competitive Bidding/Press Tender, Prequalification and Proprietary	
	mode of procurement effective from February 27, 2018.	
	i. Tender value less than or equal to US\$ 200,000:	
	Payment to the Contractor/ bidder in foreign currency shall be made by	
	establishing in favor of the Contractor an irrevocable Letter of Credit (hereinafter	
	called the L/C). 70 % Payment (s) under the L/C will be made for the FOB/ CFR /	
	CPT (as the case may be) price of material of each shipment upon submission of	
	the shipping documents. Balance 30% Payment will be released after receipt,	
	inspection and acceptance of material.	
	ii. Tender value more than US\$ 200,000:	
	Payment to the Contractor/ bidder in foreign currency shall be made by	
	establishing in favor of the Contractor an irrevocable Letter of Credit (hereinafter	
	called the L/C). 80 % Payment (s) under the LC will be made for the FOB/ CFR / CPT	
	(as the case may be) price of material of each shipment upon submission of the	
	shipping documents. Balance 20% Payment will be released after receipt,	
4	inspection (in addition of pre-shipment inspection) and acceptance of material.	
4	The Bidding Procedure is "Single Stage - Two Envelope Procedure":	
	All bidders are required to carefully read bidding procedure and terms & conditions	
	elaborated in OGDCL's Tender Document uploaded on Company's website under	
	heading "MASTER SET OF FOREIGN TENDER DOCUMENT (PRESS-SINGLE STAGE TWO ENVELOP) 05-01-2022	
	1000 LIVELOT) 03-01-2022
