3rd part pre-shipment inspection

PROC-FB/CB/P&P-5406/2022

Spares for Waukesha Engines of Chanda & Mela plants

Term of Reference/Scope:

The scope of Pre-shipment inspection of the material to be carried out by 3rd party inspection company is outlined below:

- Coordination with OEM/Packager/Supplier for finalizing the date and place of inspection.
- Review the detailed listing (will be provided by OEM/Packager) of the equipment, material, accessories and all other relevant parts being shipped, purchase order and other relevant documents.
- Each package shall contain following information with unwashable paint.
 - a. Oil & Gas Development Company Ltd. Pakistan
 - b. Contract No:
 - c. L/C No.
 - d. Equipment No.
 - e. Storing and handling instructions for fragile items.
 - f. Gross weight (in metric tons)
 - g. Dimensions (length x width x height)
 - h. Place of origin
- Verify the completeness of the material (Part numbers, Quantity, quality etc) based on the final packaging list provided by OEM/packager.
- Compliance checks for safety standards of transportation/shipment.
- Physical check for any damages.
- Instruction necessary for the storage to maintain integrity of material at site and before setup.
- Quality of exterior paint must be checked and ensured. It should be free of lead and chromates.
- All exterior surfaces except for corrosion resistant material should be coated with rust preventive material.

- All interior surfaces shall be physically checked to ensure that no dust, oil particles, welding spatters and other damaging particles reside there and those surfaces be coated for rust prevention.
- All the threaded openings must be secured with steel plugs and opening beveled for welding shall be secured to prevent entrance of any moisture content or dust.
- Centre of gravity and lifting points be marked clearly on the equipment.
- All the components being shipped separately shall be tagged with item and serial number of the equipment for which it is intended.
- Safety standard should be considered in every step of packaging, delivery and transportation/ shipping.
- Any connections dismantled for shipment purpose shall be matched marked for ease of assembly.
- Preparation of report in the light of above inspection, applicable codes/standards, and clearly identify the acceptable criteria.
- Copies of necessary documentation to be confirmed with material.
- Name plates (where required) to be provided clearly and readable.

The scope covers the minimum requirement and any other check whether visual or procedural required to be confirmed for completeness of the package will be responsibility of 3rd party. The 3rd party inspector will communicate all the necessary recommendations/observations to OGDCL for final decision for shipment of material.

OGDCL will arrange 3rd party inspection, however, Bidder/supplier of material will facilitate the 3rd party inspector for completion of all necessary steps of inspection at its works/warehouse.
