

I – INVITATION TO BID

1.0 **INTRODUCTION**

Oil & Gas Development Company Limited hereinafter referred to as “OGDCL” is executing UCH Compression Project.

Oil & Gas Development Company (OGDCL) is the leading E&P Company of Pakistan and is “Operator” of the UCH Gas Field.

The UCH gas field is located about 67 Kms south east of Dera Bugti in Balochistan province. OGDCL has been operating UCH Gas Processing Plant since 1999 having installed capacity of 600 MMSCFD raw gas. UCH field has two (02) processing plants i.e UCH-I and UCH-II, and each processing plant has two separate trains of 150 MMSCFD. The commingled low BTU Sale gas of around 430 to 480 BTU/scf is being supplied to buyer M/s UPL (UCH Power Limited) for power generation.

UCH Gas Field consists of three Lobes named as Eastern, Western & Central Lobe, w.r.t the location of wells, the composition and Heating Value of the gas streams. The Flow Lines from all the wells are gathered at their lobes of each plant. Well-stream fluids from each Lobe headers are directed to their individual Slug Catchers in UCH-II Plant. However, UCH-I has a common Slug Catcher for all the three Lobes.

OGDCL has decided to install Front End Compression System at its UCH Field in order to cater the depleting reservoir pressure with passage of time. As per conceptual study three (03) compressors with philosophy of 02 operating and 01 standby will be installed at UCH-II Gas Processing Plant as combined Front End Compressors for both UCH-I & UCH-II Plants.

Three Gas Turbine driven centrifugal Compressors trains (Directly coupled with Centrifugal compressor) shall be installed in parallel configuration and shall be used for Wells combined flowrate and their declined suction pressure. The inlet reception pressure of plants ranges from 500 psig to 400 psig with constant discharge operating pressure of 850 psig.

OGDCL through this Invitation to Bid invites parties to participate in the Tender for Design Engineering, Procurement (Supply), Construction, Installation/ Erection, Pre-commissioning, Commissioning & Start-up (including performance testing and Reliability Guarantee Test) of UCH Compression Project by submitting their bid proposals as per instructions given in this Tender Document.

The Tender Document defines the basis for the bid proposals and consists of following Volumes:

- **Volume – I (ITB, Commercial & Legal)**

- Section – I : Invitation to Bid
- Section – II : Instructions to Bidders (ITB)
- Section – III : Scope of work
- Section – IV : Form and Conditions of Contract
(Including Price Schedules)

- **Volume – II (Technical)**

- A : Process
- B : Mechanical
- C : Electrical
- D : Instrumentation
- E : Civil

Bidders are advised to carefully examine and review the Tender Document and Project Site conditions for assessment of work involved prior to submission of their Bid.
