

**I – INVITATION TO BID**

1.0 **INTRODUCTION**

Oil & Gas Development Company Limited hereinafter referred to as “OGDCL” is executing Nashpa Compression Facility Project.

Oil & Gas Development Company (OGDCL) is the leading E&P Company of Pakistan and is “Operator” of the Nashpa Field. Nashpa Field is located in Karak District of KPK province at a distance of about 40 Kms from Kohat City. Nashpa is a JV concession with working interest of OGDCL, PPL and GHPL.

OGDCL has decided to install new compression facility to cater the depleting pressure of reservoir/wells and optimize the production over the Nashpa Field life. The compression facility shall be installed at Nashpa Gas Plant as a Front End Compression. At present, there are seven (07) producing wells at Nashpa namely Nashpa-1, Nashpa-2, Nashpa-3, Nashpa-4, Nashpa-6 and Nashpa-7 and Nashpa-8, having a total production of around 104 MMscfd. The Project is required to be executed on EPCC basis.

The conceptual study has already been carried out and concluded that four (04) new compressors with parallel operating configuration having same capacities (each of 35 MMSCFD operating flows) with philosophy of 03 operating and 01 standby will be installed at Nashpa Gas Plant as Front End Compressors. The operating suction pressure of compressors would be in the range of 600 psig to 200 psig with constant discharge operating pressure of 1050 psig.
